CUSTOM CAPABILITIES

Framburg is one of the most integrated lighting manufacturers in the world. The capabilities that we have refined for over a century in design, metalworking, and finishing allow us to offer modifications to many of the products you see in this catalog. These modifications may include different sizes, finishes, frame configurations and lamping options.

These capabilities also enable us to create completely unique products that are specifically tailored to the customers' distinct aesthetic, scaling, and engineering needs.

Framburg products can be found in some of the finest institutions and residences because of our uncommon engineering and crafting abilities.
